

Interview Prep App - MVP Plan

Vision

Build an interactive interview preparation platform with two learning paths: LeetCode and System Design.

Core Features

LeetCode

- Pattern-based learning
- Interactive quizzes
- Pattern recognition before solutions
- Progress tracking

System Design

- Interactive architecture decisions
- Trade-off questions
- Complete architecture walkthroughs
- Progress tracking

Tech Stack

Next.js, React, Tailwind CSS, shadcn/ui, Supabase (Auth + Postgres), Vercel, GitHub.

Supabase Tables

patterns, questions, quizzes, user_progress, system_design_topics, system_design_quizzes

MVP Roadmap

Week 1: Authentication, Home, Database

Week 2: One LeetCode pattern (Sliding Window)

Week 3: One System Design topic (TinyURL)

Week 4: Dashboard, Progress, Polish UI

Future: AI Coach, Mock Interviews, Streaks, Achievements

Future Ideas

- AI code review
- AI system design interviewer
- Daily challenge
- Mock interviews
- Gamification
- Architecture builder
